[7] An Amazon Kindle Fire version was released on September 27, 2012[8] and a Windows Phone 8 version was released on September 14, 2013. For example, in a normal The Sims PC game, 1 hour of game time is one minute However, in FreePlay, 1 hour really is one hour. [9] It is the first Sims game released on the iPad It differs from the regular Sims game in that it uses regular time.. The Sims FreePlay is a free-to-play iOS, Android and Windows Phone game from FireMonkey Studios.. It was released worldwide on December 15, 2011 for iOS[6] and February 15, 2012 for Android.

On July 21, 2014 Firemonkeys Studios announced there will be no further updates on the Windows Phone 8.
